A quieter industrial object.

A rounded white shell, a restrained black interface and a narrow silver seam. The prototype is designed to be pleasant on a desk and practical to open.

MATTE WHITE / PRIMARY DIRECTION

Printed polymer. 140 × 110 × 37 mm before feet and switch projection. Soft corners and a clean top surface.

SILVER / FINISH STUDY

The same geometry with a silver-colored finish. This is not a machined aluminum enclosure or grounded metal chassis.
