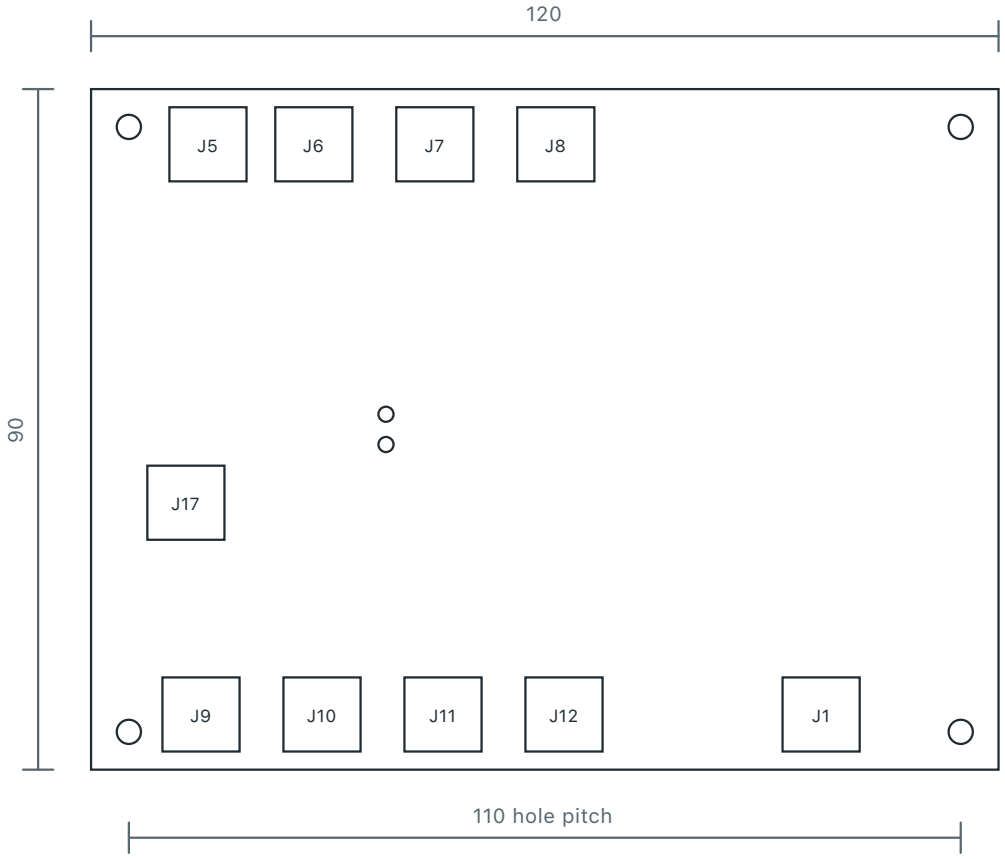
03 Custom PCB card fit template



120 × 90 × 1.6 mm custom controller. Four Ø3.2 NPTH holes at (5,5), (115,5), (5,85), (115,85).

Case offset: +10,+10. DI edge is Y=0. Q and input supply edge is Y=90. J1.1 = +24 V; J1.2 = 0 V/GND (–).

J17 is the internal switch loop. Both contacts carry positive supply; neither is ground. D2 RUN at (39,43); D3 PWR at (39,47).

Cut from card for fit checks. This is not a copper/pad image. A1 has no routed tracks and is not ready for fabrication.

100 mm — verify printed scale
